LANGUAGE

EXPERIENCE

Examination Technician
Internal Revenue Service

- Researching pertinent tax data through IDRS, accounting records, telephone contacts, IRS officials, and other agencies.
- Communicating analytical findings clearly to individuals at all levels within an organization.
- Take corrective actions to close cases such as adjusting taxpayer's account, recompiling tax liability, and preparing manual refunds.
- Knowledge of state and federal wage and tax laws and overtime requirements.

IT Project Manager
Leaf Medium

- Improved internal efficiency by proactively identifying opportunities.
- Utilized open source project management tools to manage multiple projects.
- Worked alongside customers to resolve technical problems proactively and reached 98% client satisfaction.
- Collaborated with cross-functional teams on specific user-impacting issues and bugs.

Cash Office Coordinator
Bloomingdale's

- Monitor the validity, accuracy, and reliability of performance data using a variety of techniques.
- Provided training and technical guidance to other officers in all phases and acted as a reference for complex transactions.
- Shared best practices with other teams and led a small cross-functional team of sales, management and fashion experts.
